Commissioner Jane E. Henney  
Park Lawn Building, Room 14-71  
5600 Fishers Lane  
Rockville, Maryland 20857

Dear Commissioner:

I urge you to ban the use of medically useful antibiotics in animal feed. The purpose in adding these to animal feed is questionable, and adding them runs the risk of making bacteria resistant to those antibiotics. That in turn makes the bacteria more dangerous to the human population. It may ultimately leaves doctors with no way to treat life threatening bacterial infections in humans.

Very truly yours,

A handwritten signature in black ink, appearing to read "V. S. Cook", written over a horizontal line.

Vincent S. Cook
